**AND HEALTH & SOCIAL**  
**CARE**

*"I would recommend HTS as a teacher training provider for anyone wishing to get into teaching. It gave me the platform to get to where I am today due to the vast experience I received during my time training at Healing School and Franklin College. By spending the majority of time in a school environment, it developed my confidence, relationships with both staff and pupils and I was able to understand what 'life of a teacher' was really about. I was also fortunate enough to secure employment at one of my placement schools due to the help and assistance The Humber Teaching School offered me. Now I am a deputy leader in my PE department due to the opportunities I received via the HTS."*
