

JACK BLYTH
TEACHER OF MATHS & PE
HEAD OF HOUSE
HEAD OF ENRICHMENT

"I was fortunate enough to complete my **NQT** year with HTS and feel **lucky** to be part of a **teaching alliance** that was so **thoughtful** and **centered around developing their teachers to be the best practitioner they could possibly be**. I found HTS staff to be **approachable, supportive** and always **willing to give impactful feedback**. Their approach is centered around providing **outstanding evidence informed pedagogy** whilst giving consideration to the teacher, but also the environment they work in. They were fantastic for allowing me to **experiment** with **putting the evidence informed teaching ideas in practice** but were always willing to support where required. **I was able to grow and develop as a result of guided freedom and experimentation**. Due to the **wrap around care** that my mentor's and HTS provided, **I was able to become a teacher that makes a difference**. This led to me being awarded '**Secondary NQT of the year**' during the celebration event, something I would not have imagined when I started my teaching journey."
