

Kagan Cooperative Learning Training

**For information regarding dates and costs
please contact us**

Target Audience

The Kagan Cooperative Learning approach has been designed with all classroom teachers in mind. This course is also appropriate for educational leaders and teachers who have responsibility for Teaching and Learning across age phases, departments and at whole school level.

What is Kagan Cooperative Learning?

Kagan UK trains teachers how to use Kagan Structures, a unique set of instructional strategies which are central to all of the Kagan trainings and transform how lesson content is taught. Research-based strategies are designed to promote greater cooperation and achievement in the classroom and help students turn on to learning as well as have fun! The Kagan approach creates a safe and supportive learning environment specifically looking at academic success and social development.

The Kagan approach has proven very popular in the USA and has been running for over twenty years to date. Our trainers have years of experience in education and leadership and will help empower you to dramatically increase student achievement, improve social skills, and reduce discipline problems.

What does the Training Entail?

You will learn how to raise academic achievement and improve student social skills with Kagan Structure: simple, researched-based instructional strategies that make learning more active and interactive. You will learn easy ways to use Kagan Structures as a part of every lesson, creating greater engagement, deeper understanding of the content, improved retention and greater class and content. If you want more fun in teaching, highly engaged students who love your classroom and improved outcomes this workshop is for you!
