

New and Updated Supporting Verbal Children with Autism Spectrum Disorder (ASD)

**For information regarding dates and costs
please contact us**

**Duration of Programme:
5 x Fortnightly Sessions**

Target Audience

This course has been written for staff who support children and young people of any age who have social communication difficulties including those with ASD. It is necessary for learners to have previously attending one of the ELKLAN[®] core courses as knowledge of speech and language difficulties are assumed and vital strategies to develop.

Aims

- Maximise pupils' communication potential
- Understand the main aspects of ASD
- Understand how to use physical and visual structure
- Understand how to develop communication and interaction

What does it involve?

This **NEW** and **UPDATED** specialist course will provide learners with theoretical knowledge and an abundance of practical skills and ideas to support children and young people with autism and/or social communication needs.

This national training programme reflects the changes in diagnostic criteria and includes a whole session on managing pupils with sensory conditions in the classroom. It provides a great overview into good communication practice with those with ASD and has plenty of 'hands on' activities which help to apply the learning and makes the course very interactive.

The programme will cover the following topics:

What is Autism?

Using Structure with Children with ASD

Developing Interaction

Developing Communication

Behaviour is Communication
