# National Professional Qualification for Senior Leadership (NPQH)

## Content areas

- The NPQ content and assessment framework identified 6 content areas, for each NPQ level, which set out what a leader should know or be able to do. The 6 content areas are common to each NPQ level, but the knowledge and skills within them increases in sophistication, depth and breadth progressively through the NPQ levels. They are:
- Strategy and Improvement
- Teaching and Curriculum Excellence
- Leading with Impact
- Working in Partnership
- Managing Resources and Risks
- Increasing Capability

The NPQ content and assessment framework identified 7 leadership behaviours, common to each NPQ level, which set out *how* the best leaders operate. They are:

- Commitment
- Collaboration
- Personal Drive
- Resilience
- Awareness
- Integrity
- Respect

NPQ leaders will work with participants to evaluate the participant's strength in each behaviour theme at the beginning of their NPQ programme, and plan how the participant will develop these behaviours during their NPQ study.

## Assessment Criteria and Tasks

For each content area, participants will be assessed against the assessment criteria listed for each NPQ level, through a series of defined assessment tasks according to the national mark scheme provided by the DfE. Participants will be expected to draw upon the relevant bodies of research or examples that relate to the nature of their project.

Each NPQ level has defined tasks setting out how participants must be assessed. Each participant will need to complete a project with supporting evidence for submission as part of the assessment stage.

For NPQH, this consists of two separate projects, one of which must be based on their experiences during a 9-day placement in another school. Further details will be shared with participants at
