

## Recently Qualified Teacher Programme

**For information regarding dates and costs  
please contact us**

### Target Audience

This programme is for Recently Qualified Teachers with two—five years' teaching experience.

### Aims

- Understand the key principles underpinning good practice in the classroom
- Be aware of the impact of these principles on good teaching and learning
- Develop ways to apply these principles to consistent practice
- Provide children with the best possible learning experience
- Work more effectively as an active member of the school team
- Develop leadership skills to be come a future team leader

### What does it involve?

This programme is designed and facilitated by experienced school leaders and teachers and should give Recently Qualified Teachers a set of high level skills and strategies that will enable them to become consistently and sustainably *good* teachers. At the end of each session teachers should be able to further develop, improve and advance their teaching and learning practice in order to consistently deliver at least *good* lessons.

**Among many benefits, this programme will help to develop teaching, teamwork and leadership skills.**
